

ViaSat Data Allowance Policy – Residential Exede Classic, Essential 10, Evolution and Liberty Plans

General. If you are a subscriber to an Exede Classic, Essential 10, Exede Evolution or Exede Liberty Plan, you have a monthly data allowance. Starting on the first day of your monthly measurement period, all uploaded and downloaded data (except as otherwise noted below under “Exede Evolution Data Counting”) transmitted using your ViaSat account during metered hours in your local time zone counts toward your data allowance. Metered hours for the Exede Classic Plans are from 5:00 a.m. until midnight each day, for the Essential 10 Plan and Exede Evolution Plans are from 8:00 a.m. until 3:00 a.m. each day, and for the Exede Liberty Plans with a Free Zone are from 6:00 a.m. until 3:00 a.m. each day. All hours are metered hours for Exede Liberty Plans without a Free Zone. You can link to view your usage meter at www.myexede.net. At the end of each monthly measurement period, your data usage resets to zero. Any unused data or additional purchased increments of data (e.g. a Buy More) do not carry over to the next monthly measurement period.

Exede Evolution Data Counting. Under the Exede Evolution Plans, accessing web pages and email will generally not count toward your monthly data allowance. However, all other internet usage will count toward your monthly data allowance, including video embedded in web pages or email, streaming video or audio media, playing online games, uploading or downloading files on a browser or through any third-party application, third-party applications, data (including web pages or email) transferred through a virtual private network or other forms of remote access, voice or video chatting, or sending or receiving emails with attachments greater than 25 MB.

Exede Classic, Essential 10 and Exede Evolution Excess Use. If you are a subscriber to an Exede Classic, Essential 10 or an Exede Evolution Plan and your data usage reaches 100% or more of your monthly data allowance, we will alert you of this fact and offer you the option to purchase additional increments of data to use during the remainder of your monthly measurement period. If at any time your data usage exceeds your data allowance and you have not purchased additional increments of data, ViaSat will significantly slow and/or restrict your service, or certain uses of your service, until the end of your monthly measurement period; provided, however, that (i) if you have an Exede Evolution Plan, you will continue to have access to web pages and email at the regular speed, and (ii) with the Exede Classic, Essential 10 and Exede Evolution Plans, you will be able to continue to engage in all internet activities at the regular speed during your free zone.

Exede Liberty. If you are a subscriber to an Exede Liberty Plan and your Priority Data usage reaches 100% or more of your Priority Data allowance, we will alert you of this fact, offer you the option to purchase additional increments of Priority Data to use during the remainder of your monthly measurement period and provide you with the Liberty Pass for the remainder of your monthly measurement period for use after you have exhausted any additional increments of Priority Data you elected to purchase. Liberty Pass speeds will be slower than Priority Data speeds, do not support video streaming on multiple devices and may not support streaming of high definition video. In addition, heavier users of Liberty Pass may experience slower speeds than lighter users. Liberty Pass speeds will vary based on the time of day and your geographic location, and may be extremely slow when the network is busy, typically in the evening hours (about 5:00 p.m.- 2:00 a.m. local time), which may greatly impair your ability to use the internet. Liberty Pass users will receive lower priority on our network than subscribers who have not exceeded their data allowance or other data threshold, which will likely cause Liberty Pass users to experience slower speeds during periods of congestion than subscribers who have not exceeded their monthly data allowance or usage threshold. For further information regarding ViaSat’s network management practices, please see our Network Management Policy [here](#). If you are a subscriber to an Exede Liberty Plan with a Free Zone, you will be able to continue to engage in all internet activities at the regular Priority Data speed during your free zone.

Boost 25. If you are a subscriber to Boost 25 that provides download speeds of up to 25 Mbps, these speeds only apply to data used within your data allowance or other data threshold. For Liberty plans, the up to 25 Mbps speeds only apply to Priority Data, not Liberty Pass.

The table below shows the monthly data allowances for the Exede Classic, Essential 10, Exede Evolution and Exede Liberty Plans.

Residential Exede Internet Plans

	Classic Exede 10 and Exede Essential 10	Classic Exede 15	Classic Exede 25	Exede Evolution 5	Exede Evolution 10	Exede Evolution 20	Exede Liberty Plan 10	Exede Liberty Plan 12	Exede Liberty Plan 18	Exede Liberty Plan 25	Exede Liberty Plan 30	Exede Liberty Plan 50
Data Allowance (GB) ^{1,2,3}	10	15	25	5	10	20	10	12	18	25	30	50

¹ If you are a Recovery Act Program subscriber, your data allowance is stated in the Recovery Act Addendum to your Customer Agreement.

² Your Exede Voice data usage does not count toward your monthly data allowance.

³ Plans may have promotional periods in selected locations with increased data limits.

This Policy contains important information about your use of the ViaSat service and your relationship with ViaSat. If you do not agree with this Policy, you are not permitted to use the ViaSat service and must terminate your account immediately, subject to the terms of your Customer Agreement. For additional information about permitted uses of the ViaSat service, see our Acceptable Use Policy at <http://www.exede.com/legal>. For information about our network management practices, please see our Network Management Policy at <http://www.exede.com/legal>.

ViaSat may revise this Policy from time to time upon notice by posting a new version of this document on [exede.com](http://www.exede.com), [wildblue.com](http://www.wildblue.com), [myexede.net](http://www.myexede.net) or any successor URL(s). All revised copies of the Policy are effective immediately upon posting. Questions regarding this Policy can be directed to ViaSat via Communications.Legal@ViaSat.com.

Frequently Asked Questions

- **Q:** How do I know when I've used 100% of my data or Priority Data allowance?
 - **A:** When Exede Classic, Essential 10, Evolution, and Liberty customers reach 100% of their monthly data or Priority Data allowance, we will send an email alert to the contact email address that is on file for the account. In addition to the email alert, a link to your usage meter is available here: <https://my.exede.net/>. Log in using your user name and password and click on the "View Usage and Buy More" button to see your current data usage.
- **Q:** As an Exede Classic and Essential 10 customer, what happens to my Internet service when I use 100% of my data allowance?
 - **A:** Your service or certain uses of your service will be significantly slowed and/or restricted. This means that web pages and email will take significantly longer to load and most other internet activities will not work. However, you will be able to continue to engage in all internet activities at regular speed during your Free Zone (described below).
- **Q:** As an Exede Evolution customer, what happens to my Internet service when I use 100% of my data allowance?
 - **A:** You will continue to have access to email and web pages at the regular speeds. Other uses of your service will be significantly slowed and/or restricted, which means that most other internet activities will not work. However, you will be able to continue to engage in all internet activities at regular speed during your Free Zone (described below).
- **Q:** What do you mean by "significantly slowed and/or restricted"?
 - **A:** Your service, or certain uses of your service, will be very slow or curtailed. For example, streaming videos and music, large file downloads, virtual private networking, voice/video chat, gaming and cloud backup services will not work. Remember that using your Free Zone (if your plan has one), the Buy More option or upgrading your service plan are all ways to avoid the significant slowing or restrictions that will result if you use 100% of your data allowance.
- **Q:** Why do you restrict service?
 - **A:** Service is restricted only if you exceed your data allowance. Wireless networks, like satellite, are more likely to become overloaded by heavy video usage. We put limits on the total amount of bandwidth a subscriber can use so that we can provide all of our subscribers with a high quality online experience.
- **Q:** I understand that you significantly slow and/or restrict my service if I use 100% of my data allowance, but why do my speeds vary at times when I haven't used all of my data allowance?
 - **A:** The speed of the internet service may vary due to, among other factors, network or internet congestion, the number of users in a household at a particular time, the caliber of in-home networking connections, computer performance (including the presence of viruses or malware), the limitations of different devices (such as a smartphone versus a desktop computer) and severe weather.
- **Q:** If I use 100% of my data allowance as an Exede Classic, Essential 10 or Evolution customer, do you ever remove the restrictions and slowed speeds?
 - **A:** Yes. In fact, there are many ways to get back to normal, unrestricted service. First, since your data plan includes a Free Zone, all restrictions are removed during that time period. Second, you can change your plan to one that has a higher data allowance at any time by calling Customer Care. Third, you can Buy More data in 1 GB increments. Simply go to this website and log in using your user name and password: <https://my.exede.net>. Then, click on the Usage/BuyMore tab. Lastly, at the start of each

monthly measurement period, your data allowance is reset to the amount applicable to your plan (e.g., 10 GB).

- **Q:** As a Liberty Plan customer, what happens when I use 100% of my Priority Data?
 - **A:** If you exhaust your Priority Data, the Liberty Pass kicks in to give you 1 to 5 Mbps download speeds when our network is not busy. Liberty Pass allows you to continue to use your service after exhausting your Priority Data, but at slower speeds that will vary based on time of day and your location. In addition, heavier users of Liberty Pass may experience slower speeds than lighter users. If you subscribe to a Liberty Plan with a Free Zone, you will be able to continue to engage in all internet activities (including while you are receiving Liberty Pass) at regular speed during the Free Zone (described below).
- **Q:** Is there a limit to the amount of data I can use while on Liberty Pass?
 - **A:** The use of Liberty Pass is not unlimited. Heavy users of Liberty Pass may experience slower speeds than lighter users of Liberty Pass. Your speeds on Liberty Pass will vary and in certain situations (e.g., evening hours when the network is busy), the speeds may be so slow that your ability to use the internet may be greatly impaired
- **Q:** What is my monthly measurement period?
 - **A:** Your monthly measurement period begins and ends along with your monthly billing cycle. Each month, on the date your bill is due, we reset your data or Priority Data allowance. You can find your reset date by going to our website and logging in using your user name and password: <https://my.exede.net>.
- **Q:** Can I increase my data or Priority Data allowance?
- **A:** Yes, you can increase your data or Priority Data allowance by (i) upgrading to a service plan with a higher data or Priority Data allowance by calling Customer Care, or (ii) using the Buy More option to purchase 1 GB increments of data by logging into our web site with your user name and password: <https://my.exede.net>. Additionally, if you subscribe to a Liberty Plan with a Free Zone you can utilize your free zone (described below). **Q:** What Free Zone is available on my plan?
 - **A:** Classic Plans have the Late Night Free Zone from 12 a.m. – 5 a.m. Evolution Plans and the Essential 10 Plan have the Early Bird Free Zone from 3 a.m. – 8 a.m. Liberty Plans do not have a Free Zone unless you subscribe to a Liberty Plan with a Free Zone from 3 a.m. – 6 a.m.
- **Q:** Does Exede Voice count toward my data allowance?
 - **A:** No it does not. In fact, your Exede Voice service will remain fully functional even if your Internet service has exceeded 100% of your data or Priority Data allowance.
